Introduction

Welcome to the 2016.1.5 release of MYOB Advanced Business.

What's New in this Release?

The 2016.1.5 release is a Hot Fix release that addresses issues identified in previous versions. The following sections provide details of the changes included in this release.

Installing this Release

The 2016.1.5 service pack is automatically deployed to all production accounts.

Resolved Issues

The following table details the issues that are addressed by this release.

Problem ID	Description
Finance	
134180889702 133992966331 133683864259 133683864130	The system performed slowly when generating Debtor Statements on the Prepare Statements form (AR.50.30.00) and when loading documents on the Payments and Applications form (AR.30.20.00). This has been addressed; performance in these areas has been improved significantly.
Distribution	
134080557587 134074855331 134032343371	An error occurred when importing data from an Excel file on the Sales Orders form (SO.30.10.00). This has been resolved.
131652233158 131611118361	On the Sales Orders form (SO.30.10.00), importing sales order lines from a spreadsheet failed with the message "ERROR #111: An error occurred while processing the field INVENTORYID: Specified cast is not valid." This has been resolved.
System and Platform	
134455447308 134570291651 134453751148 134772617068	The default endpoints were not available on the Web Service Endpoints form (SM.20.70.60). This has been resolved.
134881430717 134855441961 134870808021	The error "Error #111: An error occurred while processing the field InventoryID : Object reference not set to an instance of an object." could occur when accessing the Sales Orders form (SO.30.10.00) via the MYOB Advanced API. This has been resolved.
134129863004 134111862110	Customisations did not appear on the Publish Customisation form (SM.20.45.05); existing customisations were still applied to sites, but they could not be modified. This has been resolved.
-	Power BI and OData feeds were not working with recent versions of MYOB Advanced. This has been resolved.

Known Issues

The following Known Issues have been identified in this release.

Partner users visible on some forms

User accounts with the licence type MYOB_Partner and the Admin account used exclusively by MYOB are hidden from all other users; they do not appear on user selection lists. However, these user accounts will appear in selection lists on the following forms:

- Event > Attendees (CR.30.60.30)
- Role List (SM.65.10.00)
