Managing an SMSF - AU

The client **Corporate admin** page lets you manage your client's self-managed super fund (SMSF) details.

From here, you can view and edit the fund details or appoint and remove trustees and members.

When you establish a new SMSF using Corporate admin, we'll create a new MYOB Practice client for the fund. This means you can easily view and edit the fund from the **Corporate admin** page.

If you have existing SMSF clients, you can fill in the blank fields in each tab to add information on their fund.

Learn more about viewing, editing or adding the fund's:
