
MYOB IMS Payroll

Multi-Company Management Module (MCM)

Release Notes 1.11

April 2019

The logo for MYOB, featuring the lowercase letters 'myob' in a bold, sans-serif font. The letters are colored in a gradient from purple to pink.

Introduction

IMS is pleased to enclose the latest release, v1.10, of the MYOB IMS Payroll – Multi Company Management Module (MCM).

Installing Your Upgrade

Prerequisites

Before using the Payday functionality incorporated in this release, all payroll companies will need to be upgraded to at least version 6.32 of IMS Payroll.

Electronic Link Installation

Download the executable file (.exe as contained in the link) to your hard drive and run it on the computer that has the Multi Company Management Module installed.

Once this version has been installed, and you have logged in, we recommend that you access the Help > About option and check that the Version displays v1.11.

New in this Release

This release fixes an issue with the Customer Name not being truncated to 20 characters in the Employee Details export.
