Introduction

The 6.90 release ensures that MYOB IMS Payroll complies with tax updates for the 2024–2025 tax year. It also makes other minor improvements and resolves issues identified in previous releases.

Installing your upgrade

To install the desktop upgrade

Note: Before installing the desktop upgrade, you must close all **Open** payroll periods in your payroll companies.

Before you install the desktop version:

- 1. Close all **Open** payroll periods in your payroll companies.
- 2. Back up each of your payroll companies via the Tools menu.
- 3. Close all IMS applications on your PC.

Note: Uninstalling an earlier version of IMS Payroll prior to installing this version is not recommended or required, as you'll need to reinstall any custom payroll software or modules.

If you're downloading the installer:

- 1. Double-click the executable file (.exe) that you downloaded.
- 2. Install the new version on every computer that has MYOB IMS Payroll installed.

To install the IMS Payroll Cloud upgrade

- 1. Log in to IMS Payroll Cloud.
- 2. At the bottom left, click the gold **Upgrade** button.

Note: The **Upgrade** button only appears after you click on a company with the **Closed** status.

3. Repeat steps 1–2 for each payroll company you manage.

Resolved issues

- MYOB IMS Payroll Desktop When opening the latest version of MYOB IMS Payroll on Windows 7, 8 or 8.1, an error could occur: "Unsupported Windows version ! Chromium requires Windows 10 or later." Dismissing the error let you use MYOB IMS Payroll, but the Xero Online interface wouldn't work. This has been resolved.
- MYOB IMS Payroll Desktop When entering a backup file name for Nanorepair, 'Toolkit_' was being automatically added to the file name, which made the file name invalid. This has been resolved.
